### REGALINAS

WOMENSWEAR PRODUCTION AND TRADING

Regalinas e-Shop has been successfully developed by Altec Software.  
<http://www.regalinas.gr/>

Regalinas is a Greek women's fashion brand founded in 1985 and is active in the area of design, production and trade of women's clothing.

Since 2001 Regalinas has expanded into retail and now owns 10 brand stores and a distribution through selected retail boutiques nationwide and in Cyprus.

By maintaining high standards in production Regalinas' philosophy is that the best possible quality at the best possible price ensures success.

The e-Shop has offered Regalinas the opportunity to:

- Distribute its clothes all over Greece and abroad.
- Display its products, in every color combination through the Look Book.
- Allow the customers to make easy and safe purchases through the secure environment of the biggest financial organizations.
- Provide credibility to customers, since the online connection of the e-Shop with xLine ERP, allows them to constantly check the availability of products per color and size; finally, it automates the procedure of orders update.

## **AGRIPAN SA**

### GROUP OF COMPANIES

**AGRIPAN SA** e-Shop has been successfully developed by Altec Software (B2B e-Shop), <http://b2b.agripan.gr/>

The e-Shop addresses to wholesale customers and covers the distribution of Car Tires, Spare Parts for Agricultural Machinery, Spare Parts for Cars, Waterpan systems for water treatment and Tools department.

The entire project has been designed and implemented by Altec Software. An ultra modern and dynamic e-Shop, online connected with Atlantis ERP, has been developed to meet **AGRIPAN SA** specific requirements.

## **UNIMAC SA**

### MACHINERY -TOOLS

**UNIMAC SA** e-Shop has been successfully developed by Altec Software (e-commerce), <http://b2b.unimac.gr/>

**UNIMAC SA** is one of the biggest companies of importing and distributing technological equipment (machinery and tools) in Greece.

The great variety of the products covers a wide spectrum of the needs of the industry specialist as well as those of a demanding DIY customer. In the past few years the company has been realizing a wide extension of its range to DIY products and home technical equipment which the end-users can acquire through the technical stores that co-operate with our company in every part of Greece.

**UNIMAC SA** aims at developing a channel of products distribution which will operate 24 hours a day, 365 days a year.

The e-commerce platform allows the wholesale customers to order products, either by adding them in their basket or by viewing the e-catalogs and clicking on the desired product code in order to add the product in their basket.

The connection of the B2B platform with **Atlantis ERP** grants the customer the right to check products' availability, be informed about the date and quantity of the expected products. Moreover, it ensures that the pricing policy between the customer and the company is applied too. Finally, the customers are constantly being informed for their financial status as well as their order history.
